*When no flooding occurs, include miscellaneous river conditions below the small box, such as significant rises, record low stages, ice conditions, snow cover, droughts, and hydrologic products issued (NWS Instruction 10-924).*

An X inside this box indicates that no flooding occurred within this hydrologic service area.

Summary: The San Juan ASOS reported 2.55 inches of rain for the month of January ... 0.47 inches less than the normal of 3.02 inches. At the Truman Field in St. Thomas, the reported amount was 0.64 inches ... 1.25 inches less than the normal of 1.89 inches.

With the dry weather ... no Hydrologic products were issued during the month of January.
